Creating App-Specific Passwords for Apple Accounts

The following directions will guide you through creating an App-Specific password for your Apple account. If you find that App-Specific Passwords are not available for your account while following this document, you may need to take additional steps:

- Verify that Two-factor authentication is enabled by following the steps outlined in the <u>Two-factor Authentication for Apple ID</u> article provided by Apple.
- If using a work, school, or other organization account, verify with your IT provider that App-Specific Passwords are enabled for your account.

Generating an App-Specific Password in the Apple ID Console

 Sign in to your <u>Apple Account</u> and select **App-**Specific Passwords.
